RAGE KICKS CANCER

The event will be held in lieu of practice on October 7th from 4-6pm at Ken Mercer Sports Park, Field 9

Run times and check-in

If possible, please arrive to check-in at field 9 approximately 15 minutes prior to your scheduled run/walk time. The 5K run/walk will take place on the path that surrounds the Ken Mercer Sports Park.

Activities/ACL Injury Risk Screening

In addition to the 5K run/walk, we will have a variety of activities in and around field 9. Featured this year will be the introduction of a novel digital screening tool to help with ACL injury risk identification and prevention, as well as some fun performance testing. We look forward to identifying players at higher risk for ACL tears, providing an individualized improvement plan, and assisting in the prevention on this specific injury.

Get in the Spirit

Players and Coaches are encouraged to wear pink in honor of Breast Cancer Awareness Month. The more pink the better! Prizes will be given to the teams that have the best collective display of pink and fun flair.

All proceeds from the event will go to Culinary Angels, a volunteer, donation-based organization that provides nutrient-rich meals to people going through a cancer challenge in the Pleasanton, Dublin and Livermore.

PLAYER'S CORNER

SUPPORTING YOUTH FEMALE ATHLETES: MENTAL PERFORMANCE AFTER INJURY

Returning to sport after a major injury can be scary—especially for young female athletes, who may face unique psychological challenges alongside their physical recovery. Megan Walinski, our Mental Performance Coach, has created a tailored plan addressing key areas necessary for a confident, resilient, and healthy return:

- **Assessment & Individualization:** Injured athletes will receive an individual evaluation exploring mood, confidence, and fear of reinjury, allowing Megan to adapt strategies to each player's unique needs.
- **Education & Communication:** Megan will provide specific injury education and open dialogue, empowering each athlete to express her concerns and understand her recovery journey.
- **Goal Setting:** Collaborative SMART goal setting will break recovery into manageable milestones—with an emphasis on celebrating mental as well as physical progress.
- **Psychological Skills:** Cognitive strategies, positive self-talk, mindfulness, and guided imagery will be addressed with athletes as they face anxieties, boost focus, and mentally rehearse success.
- **Confidence & Support:** Sharing success stories from others and building a strong support network will ensure every athlete feels connected and included throughout recovery.
- **Ongoing Monitoring:** Regular check-ins, allowing the recovery plan to be altered as needed, keeping athletes motivated and ready for a successful return to play.
